WORK SESSION:

1. THE BASEBALL ACADEMY, Fields Lane – This item was on the agenda for a conceptual review and was represented by Joe Buschynski of Bibbo & Associates. Proposed is a two-field training camp for youth baseball; one field for baseball and one field for softball. The property is immediately adjacent to the Ice Arena and takes access from its driveway through a right-of-way. The land is approximately 9.4 acres in size with 135 parking spaces provided. Nighttime games will be conducted. The applicant is looking into different types of lighting so that there will be the least amount of spillage. The field house will be used year round with lockers, an exercise room, shower and bathroom facilities, areas in which to practice pitching and catching as well as offices and party rooms for children who wish to have birthday celebrations. The field house will be a modified pre-engineered building, and the applicant was informed that the exterior fascia and landscaping must be approved by the ARB. Mention was made of the need for a traffic study due to the fact that there is one way in and one way out. Also mentioned was a sharing of parking on busy days between the academy and the ice arena. The fields will have Astroturf which is pervious to an extent and will need a collection system installed for the runoff.
